PROFESSIONAL SUMMARY

Seeking an entry-level opportunity in AI/ML or Python development where I can apply my technical skills and academic knowledge to real-world projects. Eager to contribute to team objectives, learn from experienced professionals, and continuously develop my technical and problem-solving skills.

EDUCATION

B.E. Computer Science Engineering — **Artificial Intelligence & Machine Learning, Honours**

Sethu Institute of Technology, Kariapatti, Virudhunagar

Anna University | 2022–2026

CGPA: 7.75/10 | First Class with Honours

Higher Secondary Education — Class XII (HSLC)
Virudhunagar Hindu Nadar Higher Secondary School,
Madurai

Tamil Nadu State Board | 2021–2022

Percentage: 78.16%

Secondary School Education — Class X (SSLC)
Virudhunagar Hindu Nadar Higher Secondary School,
Madurai

Tamil Nadu State Board | 2019–2020

Percentage: 66.40%

PROJECTS

BankingAI — Fraud Detection & Loan Prediction Platform

July 2026

- Developed machine learning models for loan approval prediction and credit-card fraud detection using Scikit-learn and XGBoost.
- Built FastAPI REST APIs to connect ML models with the application frontend.
- Integrated PostgreSQL for application data and prediction history.
- Integrated a Hugging Face AI chatbot for automated customer assistance and deployed the platform with an interactive dashboard.

Multilingual AI Spam Call Detection System

April 2026

- Developed a real-time spam call detection system for Tamil, English, and code-mixed speech.
- Built a backend using Python and FastAPI.
- Integrated Voice Activity Detection (VAD), Automatic Speech Recognition (ASR), and NLP models into a unified processing pipeline.
- Fine-tuned the MuRIL Transformer model, achieving 92% detection accuracy.
- Optimized the system for CPU-based real-time inference and scalable deployment for telecom security applications.

INTERNSHIP & WORKSHOP

Artificial Intelligence & Machine Learning Intern — EDU TANTR Apr 2026 – Jun 2026

- Completed a 2-month Artificial Intelligence & Machine Learning internship with practical exposure to AI/ML concepts, problem-solving, analytical thinking, and professional work practices.

Real-World Machine Learning for Engineers Workshop — SIT Jun 2025 | 1 Week

- Applying machine learning to practical problems through data preprocessing, model training, evaluation, and deployment.

Project-Based IoT & Robotics Training — ZetSpire Technologies Jul 2024 | 1 Week

- Completed project-based training in IoT and Robotics through the e-Yantra Lab Setup Initiative (eLSI).

Angular Framework Workshop — Amizth Techno Solutions Feb 2024 | 1 Week

- Participated in a one-week Angular Framework Workshop at Sethu Institute of Technology.

SKILLS

Programming :

- Python
- SQL

- ML Fundamentals:** Classification, Regression, NLP
- Data & Libraries:** Pandas, NumPy, Matplotlib
- Backend:** Flask, FastAPI
- AI & Development:** Prompt Engineering, Figma, GitHub

CERTIFICATIONS

- Cloud Computing** — Elite Certification | NPTEL
- Ethical Hacking** — Certification | NPTEL
- Learn Python Programming** certification course — CodeChef.
- Practice Python** certification course — CodeChef.
